

Agricultural Economist Position

WAEES seeks to fill a full-time position for an agricultural economist with experience in partial equilibrium modeling and knowledge of agricultural markets. The position will be focused on agricultural commodity forecasting and scenario analysis, model development, and various special studies.

Minimum qualifications include:

- B.S. in Agricultural Economics or related field (Economics, Statistics, etc.)
- Working knowledge of microeconomic theory
- Basic knowledge of agricultural markets
- Experience in partial equilibrium modeling and/or econometrics
- Excellent command of the English language, both spoken and written
- Data handling skills and experience working with agricultural data sets
- Mastery of Microsoft Excel, Word, and PowerPoint excluding macros
- Ability to work independently with minimal direction

Preferred skills:

- Masters in Agricultural Economics
- Experience with R programming
- Experience with agricultural datasets
- Visual basic programming experience
- 1 or more years of professional job experience

WAEES offers competitive salaries, full benefits, holidays, and flexible personal time off. This position is located in Columbia, Missouri. On the job training will be provided.

Application Deadline: July 1, 2022
